### **EU Type Examination Certificate**

Date: 2020/10/05 n. **584204103/OE** 

Validity: 2025/10/04

The hereunder described items of Personal Protective Equipment have overcome positively the "EU type examination" (Module B), proving their conformity to the safety and health requirements of the Regulation (EU) 2016/425 (Annex II)

Manufacturer: (Responsible of the PPE)

KTM AG

St<mark>all</mark>hofnerstraße 3, 52<mark>30 Matti</mark>ghofen - AUSTRIA

Type of PPE:

Protective gloves for motorcycle riders

Category of PPE:

II: "medium" risks.

This certificate is based on reference standards listed below: its validity is no longer ensured should new version of the standards come into force.

Model

### "TWO 4 RIDE GLOVES"

Description:

model: five fingers;

#### palm side:

- black grain leather partially perforated "Goatskin leather" (declared thickness ~0.8mm) matched with black knitting "Polyester fabric Bemberg";
- black grain leather "Conductive goatskin leather" (declared thickness ~0.8mm) on the top of the thumb;

#### back side:

- black fabric coated internally with polymeric material "Plain fabric Polyester-Elastane";
- black fabric coated internally with polymeric material "Plain fabric Polyester-Elastane" stitched with white foam material;
- black knitting matched with transparent polymeric material "Spandex fabric Polyester";

<u>lining back side</u>: black <u>knitting</u> "Polyester fabric Bemberg" matched with grey foam material;

<u>side wall of index</u>: orange knitting "Mesh fabric Polyester"; black grain leather "Conductive goatskin leather";

side wall of little finger: orange knitting "Mesh fabric Polyester";

partial reinforcements: black synthetic leather "PU-leather";

<u>fourchettes</u>: orange knitting "Mesh fabric Polyester"; black grain leather "Conductive goatskin leather";

<u>cuff (palm side)</u>: black knitting matched with transparent polymeric material "Spandex fabric Polyester" matched with black knitting "Polyester fabric Bemberg"; cuff (back side):

- black knitting matched with transparent polymeric material "Spandex fabric Polyester";
- black fabric coated internally with polymeric material "Plain fabric Polyester-Elastane";

<u>lining of the cuff (only back side)</u>: black knitting "Pol<mark>yester fa</mark>bric Bemberg" matched with grey foam material;

<u>fastening system</u>: black <u>fabric coated</u> internally with polymeric material "Plain fabric Polyester-Elastane" matched with white fabric closed with black hook and loop fastener "Velcro closure nylon" on the palm side;

reinforcement on palm basis (impact abrasion area): black synthetic leather "PU-leather" padded with grey foam material (declared thickness 3mm) lined internally with black fabric coated with polymeric material "Plain fabric Polyester-Elastane";

## **EU Type Examination Certificate**

Date: 2020/10/05 n. 584204103/OE

Validity: 2025/10/04

knuckle reinforcements:	preformed	black	rigid	polymeric	material	"ABS	plastic
protector" padded with grey f <mark>oa</mark> m material (declared thickness 5mm);							
edging: black knitting cod	ated <mark>wit</mark> h bla	ck polyr	meric r	material "PU	binding".		

Technical Standard:	EN <mark>1</mark> 3594:2015	Protective gloves for motorcycle riders – requirements				
Intended use:	for motorcycling activities, intended to give protection against ambient conditions					
Size range:	from S/8 to XXL/12	nechanical protection to the ha <mark>nds and w</mark> rists in accidents.				
Technical File:	DC-11780					
Test report:	RCT n° 3913205/E					

Functions and performance levels: EN 420:2003 + A1:2009

EN 13594:2015

Protective gloves. General requirements and test methods:

the gloves satisfy the general requirements of design and manufacturing,

innocuousness, ergonomic properties.

Protective gloves for motorcycle riders:

According to the basic requirements tested and assessed, this glove has obtained an overall performance level of 1 (\*)

**KP** = additional property indicating the presence of the knuckle protection.

(\*): the higher level provided by the technical standard is level 2, granted to gloves providing an increased protection with respect to level 1 but might have weight and ergonomic restriction

Marking:

printed on different labels and displaying the following information:

- CE Marking;
- Name / Trademark of the Manufacturer;
- size indication (size according to EN 420 + commercial size);
- pictogram for motorcycling use + overall level of performance achieved during laboratory tests + symbol KP indicating the presence of knuckle protection + nr. and year of the Standard of reference;
- product name;
- additional information: care label symbols and instructions + composition materials + internal codes + "Made in...".
