n. **584204602/OE**

Validity:
2025/11/10

Functions and performance levels:

The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities.

This PPE item has reached the following performance:

Class A(*): Class A garments offer a minimum necessary degree of protection from impact and abrasion and are expected to have the least ergonomic and weight penalties.

(*) The Standard provides different classes of protection for garments including protectors/shells: AAA (highest class), AA (middle class) and A (lowest class); class B is for garments not including protectors / shells = just abrasion protection; class C is for impact protector ensemble garments.

NOTES: the protection provided also depends on the correct fit of the garment; the CE-Certified incorporated impact protectors provide strengthened protection and must be kept in their place: this falls within the responsibility of the user.

Marking:

printed on stitched labels and displaying the following information:

- **CE Marking;**
- name/trademark and website of the Manufacturer;
- item designation (article name);
- pictogram to indicate the motorcycle use, class of protection achieved, nr./year of the reference Standard;
- pictogram instructing to read the User Manual;
- size indication;
- composition materials, care/washing symbols and instructions, "Made in...", warnings, internal codes and nr. identifying the Notified Body in charge.
